

E-Train

An E-Newsletter from the Editors of T&D World

Place your message in the industry's best training resource.

eTrain is an e-newsletter focused exclusively on training. Deliver your message to 34,000+ power-delivery professionals on the first and third Thursday of each month. Each newsletter will contain the following sections:

Featured Instructor

This section provides a profile of a featured instructor who is well known in his or her field. Coverage will include personal and professional history, the instructor's employer, and courses taught with a description of a highlighted course.

News & Highlights

This section will highlight topics including major training trends, overviews of company courses or training programs, online events, training books and materials, or training facts and statistics.

Training Courses

This section will list five to ten courses to be held within the year. Courses will cover all aspects of T&D including: planning, design, engineering, operations, construction and purchasing. Automation courses will also be covered which will focus on managing and operating our distribution and transmission IT systems.

Calendar of Events

This section lists exhibitions, conferences, seminars and workshops of note in the power delivery industry. The date, location, and a brief description will be provided for each listing. A web link will be provided to access the detail event information.

Positions Available

- 1 **Exclusive lead banner** with text and link
Price: \$1,050 net/mo Size: 468x60
- 2 **Banner ad** with text and link
Price: \$530 net/mo Size: 468x60
- 3 **Right Rail Buttons** with link
Price: \$265 net/mo Size: 120x120
- 4 **Featured Listing** with logo, link and premium placement
Price: \$265 net/mo

Formats Accepted: JPG, GIF Animated GIF, 35K max

If you are sending an animated GIF please make sure the first frame contains all necessary information. Readers on Outlook 2007 will only be able to see the first frame. Readers on other versions of Outlook or on different e-mail programs will be able to see the full animation.
