

Test, Monitor & Control

An E-Newsletter from the Editors of T&D World

T&D World's Test, Monitor & Control e-newsletter lets you deliver your message in a highly targeted environment to 35,000+ power delivery professionals twice each month.

It is imperative that utilities track the condition of their systems if they are to effectively maintain and operate them. This demands the right tools, equipment and software for engineers and technicians to accurately evaluate the condition of their grid components and develop strategies to maximize the use of these systems. *Test, Monitor & Control* provides a wealth of information to our readers and offers an exceptional sponsorship opportunity for you. *Test, Monitor & Control* is emailed on the first and third Tuesdays of each month.
